SUMMARY

Versatile **Full Stack Developer** with a solid foundation in **JavaScript, React.js, Node.js, and Python**, backed by hands-on experience across front-end and back-end projects. Successfully delivered complex web applications, including an AI-powered food assistant and a luxury-themed tech website. Adept at building responsive, performance-optimized interfaces and writing scalable backend logic. Strong understanding of full development cycles with real-world application via internships and project-based learning. Proficient in building scalable applications and passionate about software innovation, data-driven solutions, and continuous learning. Eager to contribute technical expertise, creativity, and strong collaboration skills to the software **engineering team**.

TECHNICAL SKILLS:

- **Programming Languages:** JavaScript (ES6+), Python
- **Frontend Development:** HTML, CSS, JavaScript
- **Frameworks:** React, Next.js, Redux, TailwindCSS, Bootstrap, Vue, Angular
- **Backend Development:** Node.js, Express.js
- **Database:** MongoDB, MySQL
- **Version Control:** Git, GitHub
- **UI/UX Design:** Figma, Adobe XD
- **Web Development:** Responsive Web Design, Cross-Browser Compatibility
- **API Integration:** RESTful APIs, AJAX
- **Performance Optimization:** Website Speed Optimization, Load Time Reduction

HARD SKILLS:

- Communication, Leadership, Problem Solving and Efficiency

CAREER OBJECTIVE:

Open to opportunities across diverse domains including web development, AI/ML, data engineering, product development, and more. Flexible to pivot as per market demands and company requirements. Keen to contribute wherever my technical foundation, creative thinking, and fast learning can add value.

PROFESSIONAL EXPERIENCE

KOVAN LABS

Software Engineer Intern

Project 1:

Coimbatore/India

Sep 2024 – Oct 2024

- Developed **highly responsive front-end components** using **React.js, JavaScript (ES6+), HTML, and CSS**, improving page load speed by **30%**.
- Built and maintained **scalable RESTful APIs** with **Node.js and Express.js**, reducing database query execution time by **40%**.
- Implemented **JWT-based authentication and OAuth authorization**, enhancing security and protecting user data.
- Designed **modular, reusable JavaScript components**, reducing development time for future projects.
- Automated **CI/CD pipeline with Docker and GitHub Actions**, improving deployment efficiency.
- Collaborated with cross-functional teams, contributing to agile sprints and project planning.

Project 2:

- Developed **frontend UI in React.js** and **backend REST APIs with Python**
- Worked on building scalable web applications using JavaScript and Node.js on the back-end, and React.js on the front-end.
- Participated in designing and implementing RESTful APIs and integrating them with front-end components.
- Followed best practices for modular, reusable, and maintainable code to ensure security and stability.
- Collaborated with the design team to convert UI/UX designs into responsive web interfaces.
- Assisted in debugging and optimizing web applications for performance.

PROJECTS

- **Luxury Tech Website – SOLARA**

Designed and built a high-end, responsive tech brand website using **React.js** and **TailwindCSS**, replicating a luxury aesthetic with glass morphism, scroll animations, and dark mode toggle. Emphasized pixel-perfect UI and smooth user experience.

- **AI-Based Personal Food Assistant**

Developed an AI-powered food assistant using **Python**, **Pandas**, and **scikit-learn** that recommends personalized, health-conscious meal suggestions based on real-time input. Integrated **recommendation systems**, **regression models**, and **NLP techniques** to enhance food choice accuracy and user experience. Project hosted on GitHub.

- **Customized Shopify Theme – Solo Project**

Customized the Dawn theme using Liquid, HTML, CSS, and JavaScript. Enhanced the homepage layout, added a custom hero section, restructured product pages, and implemented responsive design. Project hosted on GitHub and tested on a Shopify dev store.

- **Interactive Portfolio Website:**

Developed a personal portfolio using **HTML**, **CSS**, and **JavaScript** to showcase front-end development skills. Implemented interactive hover effects and smooth scrolling, ensuring the site was fully responsive

- **E-commerce Web App:**

Built a full-stack e-commerce website using **Node.js**, **Express.js**, **MongoDB**, and **React**. Integrated payment gateways, user authentication, and product filtering functionalities.

- **Impactful Investment Platform:**

Built a **React-based frontend** for a fintech concept encouraging women's investment. Integrated with mocked RESTful API and designed **interactive dashboards** using Chart.js.

- **Personalised outfit lookbook:**

Developed a Personalized Outfit Lookbook using HTML, CSS, and JavaScript, showcasing various outfit combinations with interactive features that allow users to mix and match clothing items for a customized fashion experience.

- **Adidas Clone website:**

Developed a fully responsive Adidas clone website using HTML, CSS, and JavaScript.

- **Chrome Extension-Productivity Enhancer:**

Designed a JavaScript-based browser extension to block distractions and track usage, utilizing local storage, event listeners, and background scripts.

CERTIFICATIONS

- Certification in Development & Advanced Engineering (Accenture) (December 2024)
- Certification in Data Analytics and Visualization(Accenture) (November 2024)
- Certification in Database Management (Walmart) (October 2024)
- Certification in Advanced Software Engineering (Walmart) (September 2024)
- Certification in Job Simulation for frontend development(Ford North America) (August 2024)
- Certification in Modern Java Script from Coursera (July 2024)
- Certification in Java Script from Udemy (February 2024)
- Certification in Object Detection Tool using OpenCV(LEAP IIT) (March 2024)
- Certification in Python (January 2024)
- Certification from One day Microsoft Workshop (June 2024)
- Certification in Dynamic HTML & CSS (March 2024)
- Certification in Complete SQL (June 2024)

APPLICATION DETAILS

- **Notice period:** Open to immediate joining.
- **Total Years of Experience:** 1 year

EDUCATION

MASTERS OF COMPUTER APPLICATIONS

DR GRD COLLEGE OF ARTS AND SCIENCE

Coimbatore, Tamil Nadu

2023 – 2025 *March*

- Score - **90%**
